

HOW TO CLEAN YOUR MONITOR SCREEN DURING COVID-19.

In order to reduce the risk of infection and to protect the users and customers of our monitors against a possible COVID-19 transmission, we have compiled the following guidelines to help you sanitize our monitors in a proper way.

- If possible, turn off and unplug your device.
- Wash your hands using soap or a sanitiser with at least 60% of alcohol.
- If possible, wear a face mask to reduce the risk of possible transmission.
- Always wear disposable synthetic gloves while cleaning.
- Use one of the following ECDC approved solution for environmental cleaning in non-healthcare facilities (e.g. rooms, public offices, transports, schools, etc.):
 - Isopropanol (a.k.a. isopropyl alcohol), 70% solution
 - Ethanol, 70% solution
- Use a clean non-abrasive cloth, for example made of microfiber.
- Use the cleaning solution to dampen the cloth. Never spray the cleaning solution directly on the device.
- Wipe the screen gently and in small circles, avoiding pressure.
- Make sure the glass and screen are completely dry before using the device again.
- Remove and discard the synthetic gloves after each cleaning and wash your hands in the same way as you have done it before the cleaning process.
- Avoid using the following products as they may cause discoloration on the monitor:
 - Ammonia
 - Acetone
 - Chlorine-based products (e.g. bleach)
 - Peroxides (including hydrogen peroxide)
 - Paint thinners, benzene, methyl chloride, toluene

ATTENTION!

The guidelines below apply to all iiyama monitors and touchscreens **EXCEPT** for these optical touchscreens: **T2252MTS-xx, T2452MTS-xx, T2253MTS-xx and T2453MTS-xx**. For advice on cleaning iiyama optical touchscreens, please **see the page below**.

Attention!

CLEANING OF REFLECTOR

- NOTE**
- Never use any solvents, cleaners and sprays etc.. These will damage the reflector. Also, when use mild detergent solvent to clean the cabinet or Glass does not adhere the reflector. When the reflector is damaged, the touch function is lost.
 - Never use a hard materials, hard clothes and tissue paper etc. because will damage the reflector. When the reflector is damaged, the touch function is lost.

Dust: Wipe the Dust gently with a soft dry cloth.
Use an Air Gun or Air Spray if available.

Stain: Wipe the Stain gently with a soft cloth lightly moistened in water.
Then wipe it gently with a soft dry cloth.
